Total no. of participants: 186

Welcome and Introductory Speech by : Dr .Mita Gharte

Key Issues Highlighted By the Speakers:**1.Mrs.Jyoti Amne :**

Mrs. Jyoti Amane is police inspector working in women security cell, Nashik Division. Her interaction with students started with a presentation of short documentary film on ragging and its detrimental effects on the victim, accused ,Family, Institute and society at large. She motivated students to speak up on their thought regarding ragging. She briefly explained about the kind of behaviors that amount to ragging and the ways to protect our self against ragging. She emphasized that if we tolerate ragging we encourage them to continue to rag and hence it is important to raise our voice against ragging. She also explained the laws made to protect the victim and punish the accused in case of ragging. Her session ended with a video presentation depicting the majesty of universe and our existence is merely a spec in it.

2.Dr.A.F.Motiwala:

Dr. A.F.Motiwala chairman of anti ragging committee proudly announced that we have not received any case of ragging in past few years. She discussed about the psychology of a person who does ragging and how it could be handled. She said that even formal or informal introduction of junior by seniors is prohibited in the campus.

Key Learning:

1. Ragging is a crime and punishable by law.
2. A person who rags basically can do so if the victim keeps quite.
3. Case of ragging should be immediately reported to anti ragging committee.
4. Act of ragging is just reflection of inflated ego of the doer but if we realize that our identity is just a spec in the universe we may not do such thing.
5. Ragging free environment is conducive to learning.
